

Experiencing “FATHER ME” Testimony from India

My name is Jothi, 29 years old from India. For a long period of time, I realized that I have lots of hurts and desperately needed someone to help me come out of it. I don't know where to go and whom to meet, share and pour out. The Lord was grateful as we met Rev. Alicia Teo on 15th November 2012 and as she was sharing about “FATHER ME” program, I started realizing deeply that this was the very thing I needed to be healed. Graciously Pastor Alicia took a session of “FATHER ME” only for me sparing her precious time. The way Pastor led me to the womb was great! I was able to find the deep hurts I had from the very day I was born.

I was deeply troubled to get rid of my pain and hurts. I cried a lot, confessed, forgave people and released all the hurts within me. Even for that one session it took a lot of time, nearly three hours. At the end of the session Pastor Alicia said, “Jesus is Proud of you, do you accept it?” Though it seems like an ordinary sentence that every Christian knows, at that particular time I was not able to accept it from within. I started realizing that I am unworthy for Jesus to be proud of me, so I struggled a lot to accept that phrase.

It took a long time for me to understand that His love is unconditional. Later on I accepted that He is proud of me. I praise God for this wonderful moment in this life. I was almost released from pain. I started feeling very light in my heart. It was such a joyful moment. My husband and Pastor Alicia started telling me that after the session my face was glowing and when I saw my face in the mirror and picture which we took together with Pastor Alicia I could see a transformed face. After the meeting my husband was also sharing with me that he is very much in need of this “FATHER ME” program for his life too.

On the following Sunday i.e. on 18th November, I had the privilege of sharing His word in the church. I could see a new anointing in my preaching. Though I have preached several times in the church, people have not commended anything so far, but after this session of “FATHER ME” people came forward and shared that the message had penetrated into their hearts and it was very useful for them. My husband also shared that he saw a new authority when I preached the message. There was rejoicing from my

in-laws too. Praise God for “FATHER ME” which has transformed my life. I am also looking forward to receive the WHOLENESS of blessing through “FATHER ME” program.

My husband and I see the need of “FATHER ME” as we minister to the younger generation in India. Praise God for Pastor Alicia whom God has chosen to deliver people from their bondages and generational curse. It is a ‘must’ for the people whom we minister here in India, especially to the younger generation.
