

### Healed of TMJ under Father Me Healing Program

I used to be very weak in the body and suffered a lot of affliction in my right shoulder and arm. The pain was so intense that I could hardly sleep well at night. Whenever I felt very angry and frustrated with life due to emotional abuse of my husband, an intense pain would hit my shoulder and I could not lift up my arm.

I thank God that I was introduced to Father Me program when Sis Peggy brought me to TCC. Ps Alicia ministered to me and addressed the spiritual root cause of my problem. After each session, I felt lighter and I could feel the joy in my heart. I could also lift up my arm freely. The pain in my arm is now gone as Jesus put joy in my heart. I believe God for complete deliverance and I command that the pain will not return. Now praise God, I am able to sleep well at night. All Glory to God!
